

Partners in Protection (PIP) Statement of Support

Renfro LLC, doing business as Renfro Brands, is committed to a safe and secure supply chain by supporting the Partners in Protection (PIP) program. As a proud member since July 2012, supply chain security continues to be an integral part of the Renfro Brands culture and business processes.

The Partners in Protection (PIP) program is a voluntary program designed to establish partnerships between trusted businesses and Canada Border Services Agency (CBSA) to enhance the integrity of Canada's borders and the security of the international supply chain.

Renfro Brands has developed, and maintains, a multi-layered security program that is consistent with the PIP standards and remains committed to protecting our organization and supply chain from any illegal or illicit activities. As participants in the PIP program, it is the policy of Renfro Brands to:

- Cooperate with Customs in its efforts to ensure the security of the supply chain.
- Meet the recommended security practices and assist in the worldwide campaign to stop terrorism, drug trafficking, human smuggling, and illegal contraband.
- Provide security guidelines and training for Renfro Brands employees, contractors, service providers, and others associated with the company.
- Provide a safe environment for our employees, customers, vendors, and other visitors.
- Investigate any situation or significant event which may be related to a breach in cargo security or any PIP criteria and notify the proper authorities.
- Review, revise, and update security practices and procedures on a regular basis, or as needed.

Security is a shared responsibility. All employees and business partners, including contractors, service providers, and visitors are required to comply with Renfro Brands' PIP policies and procedures at every facility.

Jay Robinson
President and CEO, Renfro Brands
